**Audio**

**Transmit Tone:** Single Beep

**Receive Tones**

**Control Light Issue:** Lights Up

**Antenna** Antenna Symbol

**Radio:** Turns On

**Transmissions:** Will Not Transmit

**Problem Frequency** Intermittent

**Problem Seems:** Non Location Dependent

**Narrative:** On above day and time I attempted to go out with traffic stop with my handheld radio. I requested the air and when I was told to go ahead I pressed the key and received the one go beep. I then began giving my traffic stop information and as I did the radio gave a long single beep. Hearing this I released the key and waited a few seconds then tried again. I then got the single go beep and began with the information but the radio beeped again. I again released the key and when I did the dispatcher told me that I was 10-1 and their response to the problem was go out with the information on the MDC. I did go out over the MDC and created CAD# 100081429.
