Narrative:	At listed intersection portable and squad radios do not receive or transmit. There are moments of intermittent messages heard, but they are extremely rare. The only solution to conducting traffics stops or filed interviews in this area is through the MDC (If the squad has one). City wide broadcasts continue to cut in and out, are garbled, or in total silence. Often I only know that a broadcast was done after hearing the dispatcher reply, "10-4 squad xxxx, you had all channels... etc).
