Narrative:	While trying to respond to another squad that was calling me on channel 4, my radio kept beeping at me, and i could not get the "grant" tone. No one else was trying to use to air at the time, that was not the problem. The radio made a sound Ive never heard before, it was 3 fast different toned beeps. We had to use our cell phones instead. I could hear them, but I could not trasmit back.
