Xmit/Rec Issue:	Transmit
Audio	
Transmit Tone:	3 Beeps
Receive Tones	
Control Light Issue:	
Antenna	
Radio:	Turns On
Transmissions:	Will Not Transmit
Problem Frequency	Continuous
Problem Seems:	Non Location Dependent
Narrative:	<p>I'm not sure on the actually date, though 3/10/10 is my best estimate. I was working with P.O. James BELONGIA when we came across a large fight in the , just south of . We were unable to get the crowd to disperse, and had to call for back up. The only problem was that I got several denied tones while calling for back up, though no one else was using the air. (on a side note, I would have liked to talk over them and take the air for back up regardless) On a positive note, by the time I was able to get a grant tone, several more people had come to fight, so we ended up with more arrests which showed that we had alot of bookings and tickets issued on the bar graphs used to measure our activity.</p>
