Narrative: While responding to a footchase near I made numerous attempts to notify Dispatcher that I was responding. Unable to get the air. I kept getting 3 beeps. This happened from , all the way to . There was no one else transmitting while I attempted to notify dispatch?!?!?! I was onscene for several minutes before my partner was finally able to raise dispatch. The initiating PO 's were also having severe trouble broadcasting (unable to get the air...numerous beeps...what was transmitted was garbled...poor audio quality...) from the time the footchase started to the time squads cleared.
