**Narrative:** At approximately 9:05pm there was a city wide broadcast which was cutting in and out. P.O. Brooks was able to transmit and inform dispatch of his squad number, but was cut off due to the city wide broadcast. We were not able to give out our location until after the broadcast was finished (what little we could hear). During the FI stop the subject armed himself with a kitchen knife which was concealed in his sleeve. Fortunately, the subject dropped it immediately. In the absence of the \_\_\_\_\_ or a supervisor riding along with us, what safety nets are in place?
