**Narrative:**  
 On Friday 04-02-10, during the hours of noon and 4pm I was notified by other Officers my transmissions were not coming over well (broken). While at about 3pm with two i/c I tried to get the air too notify the i/c address and was told (by officers and dispatch) I was cut off after the first word every time I attempted to make contact.  
 I also had many troubles with getting beeped during transmissions. This occurred many times during the week of 03-28 / 04-02-10. Ch 12 is the worst to hold the air and get the air.  
 On a good note I have never lost transmission inside D7.
