Receive Tones	
Control Light Issue:	
Antenna	
Radio:	
Transmissions:	
Problem Frequency	
Problem Seems:	

Narrative:

Dispatcher CHURCHWELL, while dispatching for District 5 received a text message from D-6 console that her transmissions were bleeding over, and freezing up D-6 console. I subsequently contacted D-6 console operator Officer MISHICH regarding the alleged malfunction, and MISHICH stated that at approximately 6:30pm she began hearing dispatched assignments from D-5 Dispatcher, but she did not hear any D-5 Squads during the transmissions.

MISHICH also stated that the one sided transmissions went on for approximately 2 hours, and the console for D-6 was frozen during that time frame.

I subsequently spoke to CHURCHWELL again, and asked her what could have caused this problem, and she stated that she did not know, and she did not have a reason to access channel 4 (D-6 console) prior to the issue being brought to her attention.
