Comments

Description of Resolution: Sgt Belmore called about a declared EMERGENCY on MPD-6. Dispatch consoles could not clear emergency, and anytime there was traffic on MPD-6 the emergency condition came back. Upon arrival, I attempted to clear the emergency, but the same problem occurred. I then went to our UAS terminal, went to the RNC, and performed a "tear-down" of the talk group labeled "EMS-5". After performing this, the emergency cleared. Contacted Sgt Belmore and verified that the emergency had been cleared.
