<b>Narrative:</b>	<p>The radios don't ever transmit from 5 (and usually don't receive either). The radio didn't work today inside 5. The radio sometimes just doesn't work for seemingly no reason at all.</p> <p>At some point, officers are going to get hurt or killed in direct relation to not being able to communicate with each other &amp; dispatch. I think the amount of money that the city would stand to lose from eventual lawsuits would be incentive enough to provide us with proper equipment.</p>

**Comments** The radio system having difficulty broadcasting from certain types of buildings is a known issue. Basically the system loses too much signal strength in certain buildings. Almost all large structures like \_\_\_\_\_ will have this problem. Even smaller structures as well, depending on your location in it, \_\_\_\_\_ The only way this issue can be addressed is by installing \_\_\_\_\_ in these \_\_\_\_\_ Unfortunately, this is an expensive proposition in addition to the fact that MPD doesn't own the buildings. We have put \_\_\_\_\_ to ensure that we have coverage in those buildings.
